

Maritime Adventures

This week I am going to **Maritime Adventures**. I will go every day this week at the same time to the Maritime Center. It will be fun to see old friends and make new ones, too.

When I arrive, I will check in at the table.

Next, I will put on a lifejacket.
I always wear my life jacket until it is time to go home.

The instructors will gather us in a group to introduce ourselves and answer the question of the day. When it is my turn, I will tell them my name and answer the question.

Next, the instructors will tell us what activities we will do today. During the week, I will have a chance to do fun activities like windsurfing, stand up paddling, Hawaiian outrigger canoeing, and sailing. Even if I'm a little nervous to try something new, the instructors will teach me how and keep me safe. If I don't get to do one of the activities today, I will get to do it tomorrow or the next day.

When it is time, we will head down to the docks. The instructors will split us up into groups. It is really important to be a good listener at Maritime Adventures.

Sometimes I might get wet or fall into the water, but that is okay because I have on my lifejacket.

If it rains, I might play games inside the Maritime Center with my friends.

We will all work together as a team when we are doing our activities. We might have races at Maritime Adventures. It's okay if my team doesn't win, it's just about having fun.

At the end of the session, I can jump in the water with my friends if the instructors say it is okay.

The last thing we will do is a group cheer.
