

South Coastal donates to CORSE

South Coastal Bank announced the Scituate CORSE Foundation (Community of Resources for Special Education) has been awarded a \$500 grant from its South Coastal Bank CARES community-giving program.

Committed to enriching the lives of children in the communities it serves, South Coastal Bank specifically designed CARES to help local not-for-profit groups promote and encourage a sense of community, achievement, responsibility and excellence in children through exposure to the arts.

The Scituate CORSE Foundation is dedicated to aug-

menting and enhancing programs and resources for special needs students attending Scituate Public Schools. The organization will use the CARES funds for its music therapy program for students served by the Scituate Public Schools Early Childhood Center, which operates out of Scituate High School.
